# LED TASK LIGHT

## W/ MOTION SENSOR (24" LIGHT ONLY)

Save energy with the easily mountable LED Task Light with built-in motion sensor. Each light runs at approximately 13 watts or less, which computes to over 60% in energy savings for comparable incandescent and fluorescent lights. LEDs have been proven to last longer and use less energy than their outdated fluorescent counterparts. Our LED task light attaches to the underside of a flipper door unit or shelf using magnets for easy adjustment.

Available in silver aluminum finish. 18" and 24" options available. 24" includes a built-in motion sensor (can be toggled on/off). Lights can also be daisy-chained together.

Note: 24" light cannot be used on 24" overheads. 18" light is recommended with 24" overheads.
